

## 5<sup>th</sup> Expert Conference

# SCADA SECURITY

The conference is part of the **FUTURE FORCES FORUM**

**May 15, 2025 • Police Academy of the Czech Republic in Prague**

**Critical information infrastructure is the backbone of modern society.** With the increasing number and severity of cyber incidents, the demand for protecting key systems is growing. Industrial control systems (ICS) are an integral part of critical infrastructure, yet their security remains insufficiently addressed. Despite ICS becoming frequent targets of cyberattacks in recent years, their protection is still often overlooked in many organizations.

**Crisis management and critical infrastructure protection are key to national security, especially in the current geopolitical landscape.** Critical infrastructure includes power grids, water supply systems, healthcare services, and communication technologies—fundamental elements essential for society's functioning. Cyber readiness is crucial for safeguarding these systems against attacks that could have devastating consequences for national security and the economy. Given the increasing threats and geopolitical tensions, the need for effective crisis management and cybersecurity investment is more urgent than ever.

**Cybersecurity also plays a crucial role in the Internet of Things (IoT).** A network of physical devices—from industrial sensors to household appliances—is increasingly becoming a target for cyber threats. Securing these systems is essential to prevent disruptions in their functionality and protect sensitive data.

**A one-day expert conference will focus on current topics in ICS security.** It will build on previous events organized under the FFF project, providing a unique forum for partners and participants to discuss key issues, exchange experiences, and explore solutions in ICS and cybersecurity. With the involvement of globally recognized experts, the conference will offer valuable insights and practical approaches to protecting industrial control systems.

**Information system protection goes beyond just technological measures.** Properly setting up data protection processes, preventing cyber incidents, and being prepared for rapid response are essential. Despite the best precautions, some incidents are inevitable—making it crucial to have effective strategies in place to manage them and minimize their impact.

### Expected Audience

The conference is targeted primarily at the security, operational and IT communities of critical infrastructure, the public sector, security forces, and the private sector cooperating on critical information infrastructure protection projects. Special attention is given to new mandatory entities under the Cybersecurity Act.

### Main Topics:

- **Critical Infrastructure Protection**
- **Cyber Readiness**
- **Crisis Management and Business Continuity**
- **Current and Future Cyber Threats and Their Solutions**
- **New Technological Trends in ICS Security**
- **New Cybersecurity Law and Experiences with NIS2 Implementation**

## Partnership Options

### Main Partner – EUR 7.000

- Exclusive partnership (only one partner with this status)
- 30-minute presentation
- Public announcement of partnership
- Table-top display in the foyer
- One full-page advertisement in the official conference catalog
- One full-page PR article in the official conference catalog
- Three standard conference tickets
- Logo on all conference materials
- Logo on the conference website, indicating partner status
- Logo on the registration page, indicating partner status
- Logo on participant registration documents
- Logo displayed during breaks and before/after the conference
- Web banner on the conference website
- Web banner in the conference e-newsletter
- Corporate roll-up banner in the conference hall
- Opportunity to distribute corporate materials to all attendees

### Coffee Break Partner with Presentation – EUR 4.000

- 30-minute presentation
- Public announcement of partnership
- Half-page advertisement in the official conference catalog
- Half-page PR article in the official conference catalog
- Two standard conference tickets
- Corporate roll-up banner at the coffee break area
- Logo on all conference materials
- Logo on the conference website, indicating partner status
- Logo on the registration page, indicating partner status
- Logo displayed during breaks and before/after the conference
- Corporate roll-up banners in the conference hall and coffee break area
- Opportunity to distribute corporate materials to all attendees

### Partner with Presentation and Table-Top – EUR 3.000

- 25-minute presentation
- Table-top display in the foyer
- Half-page advertisement in the official conference catalog
- Half-page PR article in the official conference catalog
- Three standard conference tickets
- Logo on all conference materials
- Logo on the conference website, indicating partner status
- Logo on the registration page, indicating partner status
- Logo displayed during breaks and before/after the conference
- Corporate roll-up banner in the conference hall
- Opportunity to distribute corporate materials to all attendees

### Partner with Presentation – EUR 2.000

- 20-minute presentation
- Half-page advertisement in the official conference catalog
- Half-page PR article in the official conference catalog
- Three standard conference tickets
- Logo on all conference materials
- Logo on the conference website, indicating partner status
- Logo on the registration page, indicating partner status
- Logo displayed during breaks and before/after the conference
- Corporate roll-up banner in the conference hall
- Opportunity to distribute corporate materials to all attendees
